

## ADAPT SHOP

Spring 2026

### Adapt Shop Loan Closet for Therapists!

The ADAPT Shop offers professionals a short-term loan closet to try equipment for the families they support. This service helps to ensure equipment is the best match for the child's specific needs. Loan closet includes items such as adapted toys, switches, communication symbol systems and talkers, walkers, standers, gait trainers, and power mobility equipment. Ready to try this equipment? Schedule a reservation at: [swhd.org/adapt](http://swhd.org/adapt) or in this link [here](#).

### Need Custom Equipment? Send the Adapt Shop a referral!

Referring a child (ages birth to 5) to the ADAPT Shop is now easier than ever with our new online referral form.

Our incredible pediatric therapy team is here to help design or modify equipment that fits your child's needs—and your family's lifestyle.

Fill out the form and learn more at [swhd.org/adapt](http://swhd.org/adapt), or reach out at 602-468-3430 or email [coe@swhd.org](mailto:coe@swhd.org).

### New Equipment at the Adapt Shop!

Two new pieces of Durable Medical Equipment (DME) are now available at the ADAPT shop. The **Klip posterior walker** and **Anchor bath seat**. Both are affordable options that are worth checking out next time you are at the ADAPT shop!

### **Adapt Shop at PCH Reunion Event**

Our ADAPT shop was represented at the PCH reunion event on February 28th along with a number of different community resources in the valley to support the returning children coming to visit with their PCH family and their therapists from the PCH Rehab Unit. Hilary was able to introduce and share the ADAPT shop offerings and referral process to the former PCH patients as well as educating other community resources about the ADAPT shop.

### **Friendly Reminder: Loaned Items Due Back in 2 Weeks**

Just a quick heads-up! All items borrowed from the Adapt Shop are due back within two weeks of your checkout date.

This helps us keep the loaner program running smoothly and available for more families. If anything isn't working quite right or gets damaged, no worries—just let us know when you return it so we can take care of it.

**Thanks for helping us help more families!**
